Denise:

I revised the fact sheet and plan to send it to TCEQ and my Management. Here is my revised version.

Gary, here is a very quick draft of a Fact Sheet for your review. The two specific questions I have are:
--how long is the removal action expected to take?

--are we working with someone at TCEQ that we would like to list as a contact, if so...who?
Please feel free to make any changes you feel necessary...or if you want to discuss the direction I took, let me know. We are both working rather "in the dark" on the fact sheet...so, I am not the least bit proprietary when it comes to getting this done for you today!
How many copies will you need...I can probably get them done in the print shop if we can finalize fairly soon.

Thanks.

Joy et al:

I appreciate all your teams help on this to get all of the community relations stuff lined out.

The SSID number for this site is A6JP.

We are at the beginning of figuring out who the PRPs are going to be so for now we know it is CES Environmental Services, Inc. (bankrupt). You will need to talk with Bob Werner and he may be able to give you some additional information that may be helpful for COI stuff.

I will let you guys decide if we need a contractor to provide support. I am hoping to get everything on my plate done by the end of March 2015 but we will see how things go. I could be sooner and hopefully not later.

Hello Gary,

Thank you for the clarification. Well, I guess that is all the more reason to get the correct information to Denise as soon as possible so she can work on it properly. The briefing yesterday was the first we had heard of it.

We don't have a contractor on this (our contractors usually do the Fact Sheets- Denise is just stepping in to help). We should get one on it so we can get the COI started. Can you send the list of PRPs on the site to Donn Walters so we can get the COI started please?

Thank you again.

Please keep in mind that although these sites are related, they are two different sites. Roberto did a cleanup on CES-PACES which was really PACES (Port Arthur CES). This site is CES Environmental Services, Inc. and is located at 4904 Griggs Road, Houston, TX. Some of the circumstances are the same but it is not the same site.

Thanks

Subject: CES-PACES flyer/Fact Sheet

Hello Gary/Susan:

I've already talked to Denise Williams as we'd discussed yesterday. Denise is googling and doing research on CES-PACES. It looks like Robert Bernier had the sites before, Bill Little is the CIC. Currently, Denise is looking for old Fact Sheets etc. Just as a note, the CES-PACES had been featured in one of our past 6SF Accomplishments' report as being a removal clean - up. Per yesterday's meeting, looks like it is messy again.

Can you please send Denise info on the CES-Paces as soon as possible. She's going to try and have something to you by 2:30 today that you can take. (she leaves at 2:45). Let her know if the deadline can slip a little.

- draft action memo

- old fact sheets maybe

- the recent WeCare and/or bullets done for Carl for the recent TX EJ workshop.

Denise is in the office today and will be working on it. She's already started. She sits in the cube across from Zana Halliday and down the hall from Bill Little.

I'm working from home today till 11:15.... call if you need me though. (b) (6)

I'm ccing Bill as CIC, and Donn because he's our public liaison and he's also acting for me today. Also Tony, my boss, so he has a heads up on what we're doing in case Carl/Pam ask him.
